

Technology Comparison

With Obsolete DVR Technology, Each Building Must Have Its Own DVR,

School

Computer

Network

And Each Camera Must Have Its Own Cable TO the DVR.

Adding a Building?

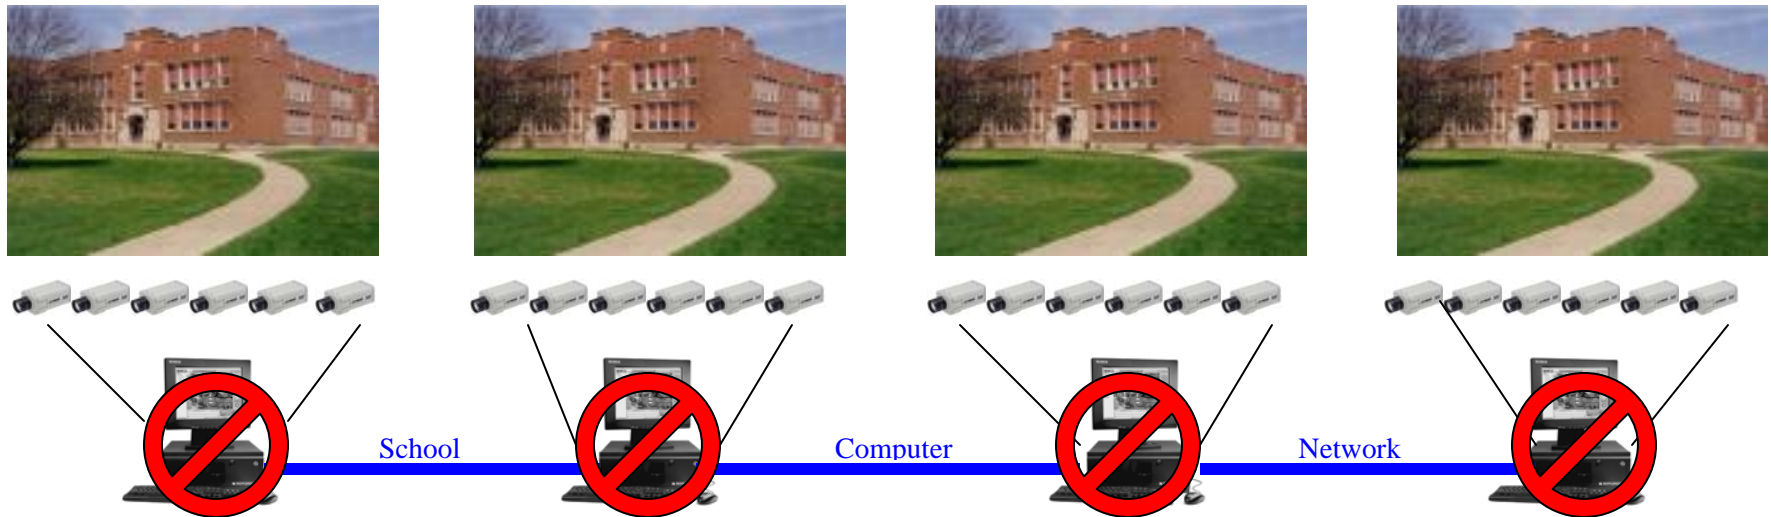

Add ANOTHER DVR.

Technology Comparison

With DynaView NVR Technology, You Can "Delete the DVR's",

By Connecting the Cameras Directly to the School Network.

Adding a Building?

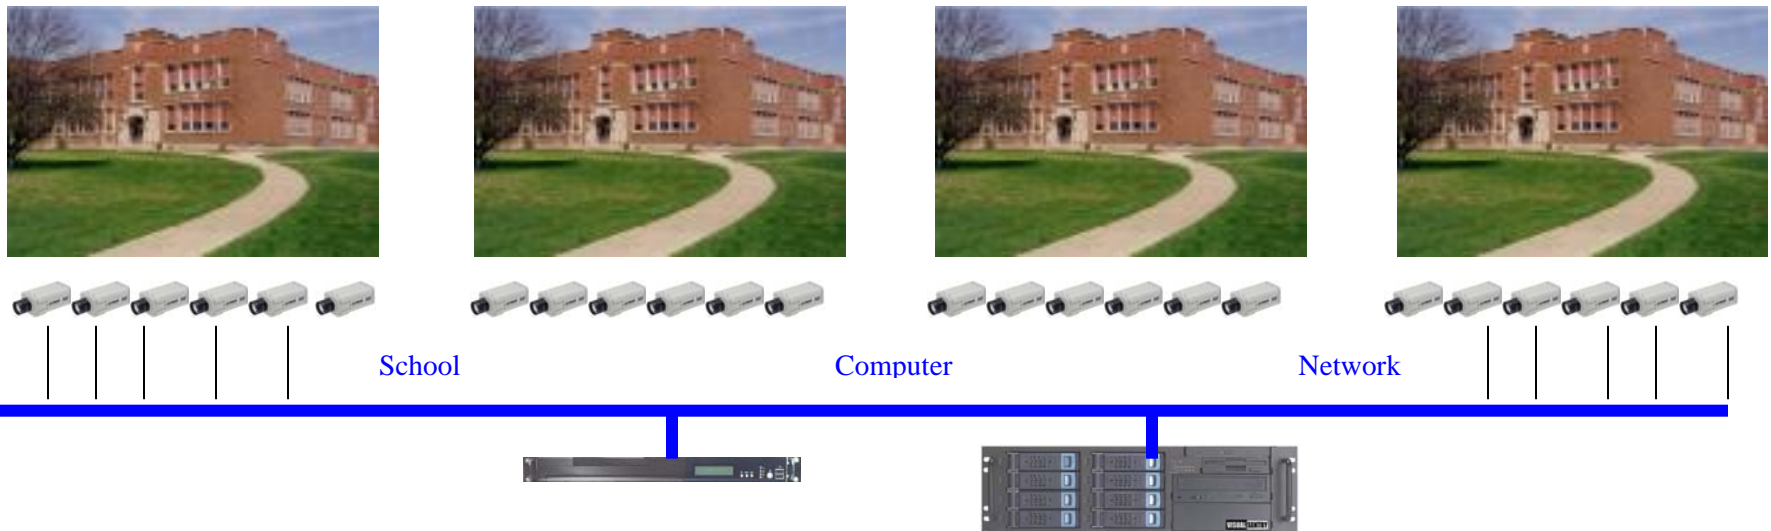

Just Add Cameras,
Not Cost.

Technology Comparison

DynaView NVR Components Can Reside Anywhere on Your Network,

And Video Can Be Viewed on Any Computer on the Network.

- Camera cables are run to the nearest Network Closet, not all the way to the obsolete DVR.
- Ten Levels of Security built into the DynaView prevent Unauthorized Viewing.
 - BANDWIDTH USE can be controlled at the Camera AND in the DynaView.
- Only the Authorized Personnel in one school can view that school's cameras.
 - No software to install on Workstations used for Surveillance.
School Administration and Police can view ALL cameras.
